Assessment Information

The Purpose of Assessment

Assessment is the broad name for the collection and evaluation of evidence of a student’s learning. It is integral to teaching and learning and has multiple purposes. Assessment can enhance student engagement and motivation, particularly when it incorporates interaction with teachers, other students and a range of resources.

Assessment provides:
- opportunity for teachers to gather evidence about student achievement in relation to outcomes
- opportunity for students to demonstrate what they know and can do
- ability to clarify student understanding of concepts and promotes deeper understanding
- evidence that current understanding is a suitable basis for future learning.

Gathered evidence is used by teachers for assessment of learning to rank or grade students. This usually takes place at key points in the learning cycle. Students receive reports identifying the levels of skill, knowledge and understanding they have achieved.

Student’s Responsibilities Regarding Assessment

Students are responsible for:
- demonstrating through application and achievement that they have met requirements
- meeting all course requirements including attendance class
- applying themselves with diligence and sustained effort, to the best of their ability, to the set tasks and experiences provided in each course
- making a genuine attempt at all assessment tasks
- their personal honesty - work submitted must be the student’s own work and sources consulted or quoted must be acknowledged
- submitting all tasks on or before the due date
- being present for all in class assessment tasks and examinations
- understanding this document

To help meet these responsibilities each student will have access to:
- an assessment schedule and course requirements for each course
- at least two weeks notification that an assessment task will take place or be due on a particular date
- feedback on each assessment task as soon as possible
- a Mid-Course and Yearly Report, which will indicate to them, their level of success in attaining the outcomes of each course, as required by the Board of Studies
- an assurance that only two assessments will be due on any one day
Assessment Notification

All students must receive written notification from their teacher of the actual due date and details of an assessment task at least two weeks prior to the task. Students will be asked to sign an Assessment Notification form to state that they have received notification of the task.

Only two assessment tasks will be due on any one day.

The written notification has precedence over the information listed in the assessment schedule contained in the student assessment booklet.

On some occasions it may be necessary for the type of task, date of the task, syllabus components for assessment, or weighting of the task to be changed from what is printed in the assessment booklet, so written notification given by the teacher will be used to list the correct details for each assessment task.

Late Tasks

All tasks submitted after the designated time will be deemed LATE unless there are exceptional circumstances. Failure to submit a task by the designated time will result in:

- A note being sent home
- A mark deduction of 10% of the maximum mark per weekday (including holidays and weekends; a weekend will be treated as one day. After 5 days the student will receive zero.)

A zero mark may be awarded when a student:

- Submits a task late (without a valid reason)
- Does not attempt a task (non-attempt)
- Does not make a serious attempt at a task (non-serious attempt)
- Is found to be involved in malpractice

NAPLAN

Students in Year 7 will participate in NAPLAN testing, 12 – 22 May 2020.

The NAPLAN student report will show your child's results in the key areas of reading, writing, language conventions and numeracy. The report will also show the national average, the range of results for the middle 60% of students nationally and your school's average for each test. This means you will be able to compare the performance of your child against other students in the same year of schooling.

The additional student report will list all the questions in each test, along with a brief description of each question. This report will show you which questions your child answered correctly.

A common assessment scale is used on each NAPLAN report so that you can track your child's progress through the years.

For further information please go to the NSW Education Standards Authority site: NAPLAN | NSW Education Standards
Acknowledging Sources in Assessment Tasks

Referencing is a method of acknowledging the variety of sources of information and ideas that you have used while completing assessment tasks outside the classroom. Its purpose is to acknowledge the original source of ideas and work that is not your own. Direct quotations, facts and figures, as well as ideas and theories, from both published and unpublished works, must be referenced. Referencing is necessary to avoid plagiarism, to verify quotations and paraphrasing, and to enable readers (and markers) to follow up and read more fully the cited author’s work.

Referencing generally has two key elements:

- an in-text reference (that is, within the text of the assessment task) that indicates you have used a phrase, idea or concept from someone else
- a complete Reference (in alphabetical order) at the end of the assessment task giving full details of all sources referred to in the assessment task

Plagiarism is presenting another person’s work as your own work by copying or reproducing it without acknowledgement of its source.

If an assessment task is not referenced in the required format, you may be suspected of plagiarism. All work presented in assessment tasks must be a student’s own or must be acknowledged appropriately. Malpractice, including plagiarism, could lead to students receiving ZERO marks for that.

For further guidance on how to reference correctly please try:

James Cook University Australia, Referencing: Harvard
http://libguides.jcu.edu.au/referencing

The Northern Sydney Institute of TAFE NSW, Research help: Referencing
http://libraries.nsi.tafensw.edu.au/research/referencing

Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- copying someone else’s work in part or wholly, and presenting it as your own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another without reference to the source
- buying, stealing or borrowing another person’s work and presenting it as your own
- submitting work to which another person such as a parent, coach, tutor or subject expert has contributed substantially using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- using non-approved aides during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice

Where malpractice is detected a zero will be given for the task. The school may apply additional penalties through the school’s disciplinary measures at the discretion of the Principal.

<td>30%</td>
<td>Term 4 Week 4</td>
<td>MA4-9NA, MA4-8NA, MA4-10NA</td>
<td>Indices, Algebra, Equations</td>
<td>A combination of multiple choice and short answer questions on Linear Relationships, Equations, Length, Area and Volume</td>
</tr>
</tbody>
</table>

**MA4-1WM** communicates and connects mathematical ideas using appropriate terminology, diagrams and symbols

**MA4-2WM** applies appropriate mathematical techniques to solve problems

**MA4-3WM** recognises and explains mathematical relationships using reasoning

**MA4-4NA** compares, orders and calculates with integers, applying a range of strategies to aid computation

**MA4-5NA** operates with fractions, decimals and percentages

**MA4-6NA** solves financial problems involving purchasing goods

**MA4-7NA** operates with ratios and rates, and explores their graphical representation

**MA4-8NA** generalises number properties to operate with algebraic expressions

**MA4-9NA** operates with positive-integer and zero indices of numerical bases

**MA4-10NA** uses algebraic techniques to solve simple linear and quadratic equations

**MA4-11NA** creates and displays number patterns; graphs and analyses linear relationships; and performs transformations on the Cartesian plane

**MA4-12MG** calculates the perimeters of plane shapes and the circumferences of circles

**MA4-13MG** uses formulas to calculate the areas of quadrilaterals and circles, and converts between units of area

**MA4-14MG** uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume

**MA4-15MG** performs calculations of time that involve mixed units, and interprets time zones

**MA4-16MG** applies Pythagoras’ theorem to calculate side lengths in right-angled triangles, and solves related problems

**MA4-17MG** classifies, describes and uses the properties of triangles and quadrilaterals, and determines congruent triangles to find unknown side lengths and angles

**MA4-18MG** identifies and uses angle relationships, including those related to transversals on sets of parallel lines

**MA4-19SP** collects, represents and interprets single sets of data, using appropriate statistical displays

**MA4-20SP** analyses single sets of data using measures of location, and range

**MA4-21SP** represents probabilities of simple and compound events

4.1 performs in a range of musical styles demonstrating an understanding of musical concepts
4.2 performs music using different forms of notation and different types of technology across a broad range of musical styles
4.3 performs music demonstrating solo and/or ensemble awareness
4.4 demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing
4.5 notates compositions using traditional and/or non-traditional notation
4.6 experiments with different forms of technology in the composition process
4.7 demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing and recording musical ideas
4.8 demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire
4.9 demonstrates musical literacy through the use of notation, terminology, and the reading and interpreting of scores used in the music selected for study
4.10 identifies the use of technology in the music selected for study, appropriate to the musical context
4.11 demonstrates an appreciation, tolerance and respect for the aesthetic value of music as an artform
4.12 demonstrates a developing confidence and willingness to engage in performing, composing and listening experiences

  • Element Cover/ Symbolic Portrait |
| #2 Critical Historical | 10%                          | Semester 1 Dependent on class | 4.9               | Frames                              | Students begin a visual arts diary as they make specific explorations of ideas and interests, formulate ideas for artworks and record relevant technical information  
  • VAD |
| #3 Artmaking | 35%                          | Semester 1 Dependent on class | 4.4, 4.5          | Representation, Conceptual Strength and Meaning | Exploration of range of ideas and interests in the world particularly the genre of Landscape through 2D (drawing) and 3D forms (ceramics) focussing on both the subjective and cultural frames  
  • Ceramic Piece |
| #4 Critical Historical | 20%                          | Semester 1 Dependent on class | 4.7               | Practice                        | Examination |

4.1 uses a range of strategies to explore different artmaking conventions and procedures to make artworks  
4.2 explores the function of and relationships between artist-artwork-world-audience in Artmaking  
4.3 makes artworks that involve some understanding of the frames  
4.4 recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the visual arts  
4.5 investigates ways to develop meaning in their artworks  
4.6 selects different materials and techniques to make artworks  
4.7 explores aspects of practice in critical and historical interpretations of art  
4.8 explores the function of and relationships between the artist-artwork-world-audience in Critical and Historical  
4.9 begins to acknowledge that art can be interpreted from different points of view  
4.10 recognises that art criticism and art history construct meanings

*Please note Music and Visual Arts are taught as a Semester Course*

1.1 builds positive values and attitudes towards Science in their lives and everyday society:
SC4-1VA appreciates the importance of science in their lives and the role of scientific inquiry in increasing understanding of the world around them
SC4-2VA shows a willingness to engage in finding solutions to science-related personal, social and global issues, including shaping sustainable futures
SC4-3VA demonstrates confidence in making reasoned, evidence-based decisions about the current and future use and influence of science and technology, including ethical considerations
1.2 knowledge, understanding of and skills in applying the processes of working scientifically:
SC4-4WS identifies questions and problems that can be tested or researched and makes predictions based on scientific knowledge
SC4-5WS collaboratively and individually produces a plan to investigate questions and problems
SC4-6WS follows a sequence of instructions to safely undertake a range of investigation types, collaboratively and individually
1.3 presents science and evidence for a particular purpose and to a specific audience, using appropriate language, conventions and representations:
SC4-7WS processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns and relationships, and draw conclusions
SC4-8WS selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems
SC4-9WS presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations
1.4 knowledge of the physical world and/or Earth and Space and/or Living World and/or Chemical World, and understanding about the nature, development, use and influence of Science:
SC4-10PW describes the action of unbalanced forces in everyday situations
SC4-11PW discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations
SC4-12ES describes the dynamic nature of models, theories and laws in developing scientific understanding of the Earth and solar system
SC4-13ES explains how advances in scientific understanding of processes that occur within and on the Earth, influence the choices people make about resource use and management
SC4-14LW relates the structure and function of living things to their classification, survival and reproduction
SC4-15LW explains how new biological evidence changes people’s understanding of the world
SC4-16CW describes the observed properties and behaviour of matter, using scientific models and theories about the motion and arrangement of particles
SC4-17CW explains how scientific understanding of, and discoveries about, the properties of elements, compounds and mixtures relate to their uses in everyday life
## TECHNOLOGY (MANDATORY)

<td>Materials Technology - Mixed</td>
<td>Designing and making a project out of mixed materials and technological tools</td>
</tr>
</tbody>
</table>

**TE4-1DP** designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

**TE4-2DP** plans and manages the production of designed solutions

**TE4-3DP** selects and safely applies a broad range of tools, materials and processes in the production of quality projects

**TE4-4DP** designs algorithms for digital solutions and implements them in a general-purpose programming language

**TE4-5AG** investigates how food and fibre are produced in managed environments

**TE4-6FO** explains how the characteristics and properties of food determine preparation techniques for healthy eating

**TE4-7DI** explains how data is represented in digital systems and transmitted in networks

**TE4-8EN** explains how force, motion and energy are used in engineered systems

**TE4-9MA** investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions

**TE4-10TS** explains how people in technology related professions contribute to society now and into the future
## VISUAL ARTS/MUSIC
### 2020 Assessment Schedule

<table>
<thead>
<tr>
<th>Task</th>
<th>Weighting (100% per semester)</th>
<th>Due Date</th>
<th>Outcomes Assessed</th>
<th>Syllabus Topic</th>
<th>Overview of Assessment Task</th>
</tr>
</thead>
</table>
| #1   | Artmaking 35%                 | Semester 1 Dependent on class | 4.1, 4.3 | Practice, Frames | Exploration and range of ideas and interests in the world particularly the expression of self through a 2D form (drawing) focusing on both the subjective and structural frames  
  - Element Cover/ Symbolic Portrait |
| #2   | Critical Historical 10%      | Semester 1 Dependent on class | 4.9 | Frames | Students begin a visual arts diary as they make specific explorations of ideas and interests, formulate ideas for artworks and record relevant technical information  
  - VAD |
| #3   | Artmaking 35%                 | Semester 1 Dependent on class | 4.4, 4.5 | Representation, Conceptual Strength and Meaning | Exploration of range of ideas and interests in the world particularly the genre of Landscape through 2D (drawing) and 3D forms (ceramics) focusing on both the subjective and cultural frames  
  - Ceramic Piece |
| #4   | Critical Historical 20%      | Semester 1 Dependent on class | 4.7 | Practice | Examination |

4.1 uses a range of strategies to explore different artmaking conventions and procedures to make artworks
4.2 explores the function of and relationships between artist-artwork-world-audience in Artmaking
4.3 makes artworks that involve some understanding of the frames
4.4 recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the visual arts
4.5 investigates ways to develop meaning in their artworks
4.6 selects different materials and techniques to make artworks
4.7 explores aspects of practice in critical and historical interpretations of art
4.8 explores the function of and relationships between the artist-artwork-world-audience in Critical and Historical
4.9 begins to acknowledge that art can be interpreted from different points of view
4.10 recognises that art criticism and art history construct meanings

*Please note Music and Visual Arts are taught as a Semester Course*

<td>#4 Listening</td>
<td>20%</td>
<td>Semester 2 Dependent on class</td>
<td>4.8, 4.11</td>
<td>Rap Music</td>
<td>Identification of musical characteristics and the analysis of musical concepts through rap listening excerpts</td>
</tr>
</tbody>
</table>

4.1 performs in a range of musical styles demonstrating an understanding of musical concepts  
4.2 performs music using different forms of notation and different types of technology across a broad range of musical styles  
4.3 performs music demonstrating solo and/or ensemble awareness  
4.4 demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing  
4.5 notates compositions using traditional and/or non-traditional notation  
4.6 experiments with different forms of technology in the composition process  
4.7 demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing and recording musical ideas  
4.8 demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire  
4.9 demonstrates musical literacy through the use of notation, terminology, and the reading and interpreting of scores used in the music selected for study  
4.10 identifies the use of technology in the music selected for study, appropriate to the musical context  
4.11 demonstrates an appreciation, tolerance and respect for the aesthetic value of music as an artform  
4.12 demonstrates a developing confidence and willingness to engage in performing, composing and listening experience

*Please note Music and Visual Arts are taught as a Semester Course*
