Assessment Information

1. The Purpose of Assessment

Assessment is the broad name for the collection and evaluation of evidence of a student's learning. It is integral to teaching and learning and has multiple purposes. Assessment can enhance student engagement and motivation, particularly when it incorporates interaction with teachers, other students and a range of resources.

Assessment provides:

- opportunity for teachers to gather evidence about student achievement in relation to outcomes
- opportunity for students to demonstrate what they know and can do
- ability to clarify student understanding of concepts and promotes deeper understanding
- evidence that current understanding is a suitable basis for future learning

Gathered evidence is used by teachers for assessment of learning to rank or grade students. This usually takes place at key points in the learning cycle. Students receive reports identifying the levels of skill, knowledge and understanding they have achieved.

2. Student's Responsibilities Regarding Assessment

Students are responsible for:

- Demonstrating through application and achievement that they have met requirements including attendance in class
- Applying themselves with diligence and sustained effort, to the best of their ability, to the set tasks and experiences provided in each course
- Making a genuine attempt at all assessment tasks
- Their personal honesty, work submitted must be the student's own work and sources consulted or quotes must be acknowledged
- Submitting all tasks on or before the due date
- Being present for all in class assessment tasks and examinations
- Submitting a misadventure form if an assessment task is missed
- Understanding this document

To help meet these responsibilities each student will have access to:

- Electronically Syllabus documents
- Electronically Scope and Sequence
- Electronically assessment schedule and course requirements for each course
- At least two weeks notification that an assessment task will take place or be due on a particular date
- Feedback on each assessment task as soon as possible
- A Mid-course and Yearly Report, which will indicate to them their level of success in attaining the outcome of each course, as required by NES
- An assurance that only two assessments will be due on any one day
- Access to all relevant documentation via the school website

3. Assessment Notification

All students must receive written notification from their teacher of the actual due date and details of an assessment task **at least two weeks prior to the task**. Students will be notified via DoE email and this will form a digital signature of receipt by the students. Teachers may also post to other learning platforms, such as Google Classroom.

Only two assessment tasks will be due on any one day.

The written notification must reflect information listed in the assessment schedule contained in the student assessment booklet. Any changes made to the assessment schedule must be provided to the students in form of a written notification and a new assessment schedule must be published. The student assessment booklet online will be updated accordingly.

Any changes to an assessment and the booklet will also be emailed to all students via their DoE email. This will form a digital signature of receipt of the changes.

4. Late Tasks

All tasks submitted after the designated time will be deemed LATE unless there are exceptional circumstances. Failure to submit a task by the designated time will result in:

- A faculty letter of concern
- A mark deduction of 10% of the maximum mark per weekday (including holidays and weekends; a weekend will be treated as one day). After 5 days the student will receive zero.

A zero mark may be awarded when a student:

- Submits a task late without a valid reason or extension
- Does not attempt a task
- Does not make a serious attempt at a task
- Is found to be involved in malpractice.

5. Acknowledging Sources in Assessment Tasks

Referencing is a method of acknowledging the variety of sources of information and ideas that you have used while completing assessment tasks outside the classroom. Its purpose is to acknowledge the original source of ideas and work that is not your own. Direct quotations, facts and figures, as well as ideas and theories, from both published and unpublished works, must be referenced. Referencing is necessary to avoid plagiarism, to verify quotations and paraphrasing, and to enable readers (and markers) to follow up and read more fully the cited author's work.

Referencing generally has two key elements:

- an in-text reference (that is, within the text of the assessment task) that indicates you have used a phrase, idea or concept from someone else
- a complete Reference (in alphabetical order) at the end of the assessment task giving full details of all sources referred to in the assessment task

Plagiarism is presenting another person's work as your own work by copying or reproducing it without acknowledgement of its source.

If an assessment task is not referenced in the required format, you may be suspected of plagiarism. All work presented in assessment tasks must be a student's own or must be acknowledged appropriately. Malpractice, including plagiarism, could lead to students receiving ZERO marks for that.

For further guidance on how to reference correctly please try:

James Cook University Australia, Referencing: Harvard
<http://libguides.jcu.edu.au/referencing>

The Northern Sydney Institute of TAFE NSW, Research help: Referencing
<http://libraries.nsi.tafensw.edu.au/research/referencing>

6. Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- copying someone else's work in part or wholly, and presenting it as your own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another without reference to the source
- buying, stealing or borrowing another person's work and presenting it as your own
- submitting work to which another person such as a parent, coach, tutor or subject expert has contributed substantially using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- using non-approved aides during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice
- not producing sufficient document for any absence in the five days prior to a task due date

Students and staff will be required to complete documentation. This will be reviewed by the committee and a determination made. Students have right of appeal to the Principal.

Where malpractice is detected a zero will be given for the task. The school may apply additional penalties through the school's disciplinary measures at the discretion of the Principal.

ENGLISH

2024 Assessment Schedule

Task	Weighting (100% for the year)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Shakespearean Performance Assessment	30%	Term 1 Week 9	EN4-RVL-01, EN4-URA-01, EN4-URB-01, EN4-ECB-01	Drama [Representation]	In groups students will perform a key scene from the Shakespearean play, <i>Romeo and Juliet</i> , and then individually compose a reflection where they evaluate the dramatic processes of planning, preparing and rehearsing
#2 Novel Essay Assessment	35%	Term 2 Week 9	EN4-RVL-01, EN4-URA-01, EN4-URC-01, EN4-ECA-01	Novel Study [Theme]	Students will compose a thematic essay deconstructing the novel they have studied in class
#3 Poetry Exam	35%	Term 4 Week 4	EN4-RVL-01, EN4-URA-01, EN4-URB-01, EN4-URC-01	Poetry [Code and Convention]	Students will answer a series of short answer questions to a range of unseen poems under exam conditions

EN4-RVL-01 uses a range of personal, creative and critical strategies to read texts that are complex in their ideas and construction

EN4-URA-01 analyses how meaning is created through the use of and response to language forms, features and structures

EN4-URB-01 examines and explains how texts represent ideas, experiences and values

EN4-URC-01 identifies and explains ways of valuing texts and the connections between them

EN4-ECA-01 creates personal, creative and critical texts for a range of audiences by using linguistic and stylistic conventions of language to express ideas

EN4-ECB-01 uses processes of planning, monitoring, revising and reflecting to support and develop composition of texts

GEOGRAPHY/ HISTORY

2024 Assessment Schedule

Task	Weighting (100% per semester)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Structured Research Assignment	20%	Term 1 Week 6	GE4-2, GE4-8	Water in the World	Structured Research Assignment to be presented as a digital presentation
#2 End of Course Exam	30%	Term 2 Week 4	GE4-3, GE4-7	Water in the World Interconnections	Multiple Choice, Matching, Short Answer Questions, Geographical Skills

GE4-1 locates and describes the diverse features and characteristics of a range of places and environments

GE4-2 describes processes and influences that form and transform places and environment

GE4-3 explains how interactions and connections between people, places and environments result in change

GE4-4 examines perspectives of people and organisations on a range of geographical issues

GE4-5 discusses management of places and environments for their sustainability

GE4-6 explains differences in human wellbeing

GE4-7 acquires and processes geographical information by selecting and using geographical tools for inquiry

GE4-8 communicates geographical information using a variety of strategies

Task	Grade	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Assessment	1/3 of grade	Term 3 Week 7	HT4-2, HT4-8, HT4-9, HT4-10	Colonisation and Contact History	Research Assignment
#2 Course Work	1/3 of grade	Term 4 Week 4-5	HT4-1, HT4-3, HT4-7, HT4-9, HT4-10	Colonisation and Contact History Medieval Europe	Ongoing coursework in class books
#3 Course Exam	1/3 of grade	Term 4 Week 5	HT4-2, HT4-4, HT4-5, HT4-6, HT4-10	Medieval Europe Colonisation and Contact History	Topic Exam

HT4-1 describes the nature of history and archaeology and explains their contribution to an understanding of the past

HT4-2 describes major periods of historical time and sequences events, people and societies from the past

HT4-3 describes and assesses the motives and groups in the context of past societies

HT4-4 describes and explains the causes and effects of events and developments of past societies over time

HT4-5 identifies the meaning, purpose and context of historical sources

HT4-6 uses evidence from sources to support historical narratives and explanations

HT4-7 identifies and describes different contexts, perspectives and interpretations of the past

HT4-8 locates, selects and organises information from sources to develop an historical inquiry

HT4-9 uses a range of historical terms and concepts when communicating an understanding of the past

HT4-10 selects and uses appropriate oral, written, visual and digital forms to communicate about the past

***Please note History and Geography are taught as a Semester Course**

LANGUAGES

2024 Assessment Schedule

Task	Weighting (100% for the year)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Speaking Interview	30%	Term 1 Week 9	ML4-INT-01	Let's get to know each	Interacting
#2 Picture Book	20%	Term 2 Week 8	ML4-CRT-01, ML-UND-01	My World; Part 1	Creating and Understanding
#3 Pen Pal Letters	30%	Term 3 Week 9	ML4-UND-01, ML4-CRT-01	My World; Part 2	Creating and Understanding
#4 Ordinary Items	20%	Term 4 Week 2	ML4-INT-01, ML-UND-01	Let's go to the Market	Understanding Interacting

ML4-INT-01 exchanges information and opinions in a range of familiar contexts by using culturally appropriate language

ML4-UND-01 interprets and responds to information, opinions and ideas in texts to demonstrate understanding

ML4-CRT-01 creates a range of texts for familiar communicative purposes by using culturally appropriate language

MATHEMATICS

2024 Assessment Schedule

Task		Weighting (100% for the year)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1	Term 1 Quiz	25%	Term 1 Week 8	MA4-4NA, MA4-12MG, MA4-14MG	Working with Whole Numbers, Length, Area, Volume	Topic Test
#2	Semester 1 Exam	25%	Term 2 Week 4	MA4-8NA, MA4-10NA	Algebraic Techniques 1 & 2, Equations and revised questions from Term 1 Quiz	Worded Problem-Solving Questions
#3	Term 3 Quiz	25%	Term 3 Week 5	MA4-16MG, MA4-19SP, MA4-20SP	Statistics, Right Angled Triangles	Investigative in class task
#4	Semester 2 Exam	25%	Term 4 Week 3	MA4-6NA, MA4-7NA, MA4-12SP	Percentages, Ratios and Rates, Probability 1 & 2 and revised questions from Term 2 Quiz	Cumulative Assessment Task

MA4-1WM communicates and connects mathematical ideas using appropriate terminology, diagrams and symbols

MA4-2WM applies appropriate mathematical techniques to solve problems

MA4-3WM recognises and explains mathematical relationships using reasoning

MA4-4NA compares, orders and calculates with integers, applying a range of strategies to aid computation

MA4-5NA operates with fractions, decimals and percentages

MA4-6NA solves financial problems involving purchasing goods

MA4-7NA operates with ratios and rates, and explores their graphical representation

MA4-8NA generalises number properties to operate with algebraic expressions

MA4-9NA operates with positive-integer and zero indices of numerical bases

MA4-10NA uses algebraic techniques to solve simple linear and quadratic equations

MA4-11NA creates and displays number patterns; graphs and analyses linear relationships; and performs transformations on the Cartesian plane

MA4-12MG calculates the perimeters of plane shapes and the circumferences of circles

MA4-13MG uses formulas to calculate the areas of quadrilaterals and circles, and converts between units of area

MA4-14MG uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume

MA4-15MG performs calculations of time that involve mixed units, and interprets time zones

MA4-16MG applies Pythagoras' theorem to calculate side lengths in right-angled triangles, and solves related problems

MA4-17MG classifies, describes and uses the properties of triangles and quadrilaterals, and determines congruent triangles to find unknown side lengths and angles

MA4-18MG identifies and uses angle relationships, including those related to transversals on sets of parallel lines

MA4-19SP collects, represents and interprets single sets of data, using appropriate statistical displays

MA4-20SP analyses single sets of data using measures of location, and range

MA4-21SP represents probabilities of simple and compound events

MUSIC

2024 Assessment Schedule

Task		Weighting (100% per semester)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1	Performance Guitar and/or Voice	40%	Semester 1 or 2 Dependent on class	4.1, 4.3	Rock Music	Exploration of performance skills and ensemble techniques through various musical instruments and performance repertoire within the rock style
#2	Composition	30%	Semester 1 or 2 Dependent on class	4.4	Rock Music	Experimentation and manipulation of the musical concepts to create a rock piece using software composition tools
#3	Listening	30%	Semester 1 or 2 Dependent on class	4.8	Rock Music	Recognition and analysis of music-specific terminology, stylistic features and musical concepts within a variety of rock styles through listening

4.1 performs in a range of musical styles demonstrating an understanding of musical concepts

4.2 performs music using different forms of notation and different types of technology across a broad range of musical styles

4.3 performs music demonstrating solo and/or ensemble awareness

4.4 demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing

4.5 notates compositions using traditional and/or non-traditional notation

4.6 experiments with different forms of technology in the composition process

4.7 demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing, and recording musical ideas

4.8 demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire

4.9 demonstrates musical literacy through the use of notation, terminology, and the reading and interpreting of scores used in the music selected for study

4.10 identifies the use of technology in the music selected for study, appropriate to the musical context

4.11 demonstrates an appreciation, tolerance and respect for the aesthetic value of music as an artform

4.12 demonstrates a developing confidence and willingness to engage in performing, composing and listening experiences

**Please note Music and Visual Arts are taught as a Semester Course*

PERSONAL DEVELOPMENT, HEALTH AND PHYSICAL EDUCATION

2024 Assessment Schedule

Task	Weighting (100% for the year)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Striking Games Assessment (Practical)	25%	Term 1 Week 7-9	PD4-4, PD4-11	Striking Games	Practical Skills Assessment
#2 Research Task (Theory)	25%	Term 2 Week 4	PD4-6, PD4-9	It's Mental	Students research mental health studies
#3 Fitness Diary (Practical)	25%	Term 3 Week 2-8	PD4-7, PD4-9	Witness the Fitness	Keep a physical activity diary
#4 Fitness Program (Theory)	25%	Term 3 Week 10	PD4-5, PD4-8	Hustle for the Muscle	Design a fitness program

PD4-1 examines and evaluates strategies to manage current and future challenges

PD4-2 examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others

PD4-3 investigates effective strategies to promote inclusivity, equality and respectful relationships

PD4-4 refines, applies, and transfers movement skills in a variety of dynamic physical activity contexts

PD4-5 transfers and adapts solutions to complex movement challenges

PD4-6 recognises how contextual factors influence attitudes and behaviours and proposes strategies to enhance health, safety, wellbeing and participation in physical activity

PD4-7 investigates health practices, behaviours, and resources to promote health, safety, wellbeing and physically active communities

PD4-8 plans for and participates in activities that encourage health and a lifetime of physical activity

PD4-9 demonstrates self-management skills to effectively manage complex situations

PD4-10 applies and refines interpersonal skills to assist themselves and others to interact respectfully and promote inclusion in a variety of groups or contexts

PD4-11 demonstrates how movement skills and concepts can be adapted and transferred to enhance and perform movement sequences

SCIENCE

2024 Assessment Schedule

Task	Weighting (100% for the year)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Research Task	30%	Term 1 Week 10	1.3: SC4-7WS, SC4-8WS, SC4-9WS 1.4: SC4-15LW	Doctor in the House	Research
#2 Topic Test	20%	Term 2 Week 4	May contain a combination of any of the following outcomes 1.3: SC4-7WS, SC4-8WS 1.4: SC4-14LW, SC4-15LW	Doctor in the House	Working Scientifically Knowledge and Process
#3 Student Research Project (SRP)	30%	Term 3 Week 7-8	1.2: SC4-4WS, SC4-5WS, SC4-6WS 1.3: SC4-7WS, SC4-9WS	Salad Bowl	Research, Working Scientifically (Practical)
#4 Yearly Exam	20%	Term 4 Week 4	May contain a combination of any of the following outcomes 1.3: SC4-7WS, SC4-8WS, SC4-9WS 1.4: SC4-10PW to SC4-17CW	Doctor in the House, Third Rock from the Sun, Salad Bowl, May the Force Be with You	Knowledge and Process

1.1 builds positive values and attitudes towards Science in their lives and everyday society:

SC4-1VA appreciates the importance of science in their lives and the role of scientific inquiry in increasing understanding of the world around them

SC4-2VA shows a willingness to engage in finding solutions to science-related personal, social and global issues, including shaping sustainable futures

SC4-3VA demonstrates confidence in making reasoned, evidence-based decisions about the current and future use and influence of science and technology, including ethical considerations

1.2 knowledge, understanding of and skills in applying the processes of working scientifically:

SC4-4WS identifies questions and problems that can be tested or researched and makes predictions based on scientific knowledge

SC4-5WS collaboratively and individually produces a plan to investigate questions and problems

SC4-6WS follows a sequence of instructions to safely undertake a range of investigation types, collaboratively and individually

1.3 presents science and evidence for a particular purpose and to a specific audience, using appropriate language, conventions and representations:

SC4-7WS processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns and relationships, and draw conclusions

SC4-8WS selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems

SC4-9WS presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations

1.4 knowledge of the physical world and/or Earth and Space and/or Living World and/or Chemical World, and understanding about the nature, development, use and influence of Science:

SC4-10PW describes the action of unbalanced forces in everyday situations

SC4-11PW discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations

SC4-12ES describes the dynamic nature of models, theories and laws in developing scientific understanding of the Earth and solar system

SC4-13ES explains how advances in scientific understanding of processes that occur within and on the Earth, influence the choices people make about resource use and management

SC4-14LW relates the structure and function of living things to their classification, survival and reproduction

SC4-15LW explains how new biological evidence changes people's understanding of the world

SC4-16CW describes the observed properties and behaviour of matter, using scientific models and theories about the motion and arrangement of particles

SC4-17CW explains how scientific understanding of, and discoveries about, the properties of elements, compounds and mixtures relate to their uses in everyday life

TECHNOLOGY (MANDATORY)

2024 Assessment Schedule

Task	Grade	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1 Lunch Box for an Adolescent and Nutritional Guide	Graded A-E	On-going Assessment	TE4-1DP, TE4-2DP, TE4-3DP, TE4-6FO, TE4-10TS	Agriculture and Food Technologies	Research nutritional needs for an adolescent and create a healthy lunch box item
#2 Creative Creations with Design Folio	Graded A-E	On-going Assessment	TE4-1DP, TE4-2DP, TE4-3DP, TE4-9MA, TE4-10TS	Material Technologies – Textiles	Students are to research, design and create their own cushion
#3 Engineering Design	Graded A-E	On-going Assessment	TE4-1DP, TE4-2DP, TE4-3DP, TE4-8EN, TE4-10TS	Products: Industrial Design	A practical project that investigates the principles of flight and motion

TE4-1DP designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

TE4-2DP plans and manages the production of designed solutions

TE4-3DP selects and safely applies a broad range of tools, materials and processes in the production of quality projects

TE4-4DP designs algorithms for digital solutions and implements them in a general-purpose programming language

TE4-5AG investigates how food and fibre are produced in managed environments

TE4-6FO explains how the characteristics and properties of food determine preparation techniques for healthy eating

TE4-7DI explains how data is represented in digital systems and transmitted in networks

TE4-8EN explains how force, motion and energy are used in engineered systems

TE4-9MA investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions

TE4-10TS explains how people in technology related professions contribute to society now and into the future

VISUAL ARTS

2024 Assessment Schedule

Task		Weighting (100% per semester)	Due Date	Outcomes Assessed	Syllabus Topic	Overview of Assessment Task
#1	Artmaking	50%	Semester 1 or 2 Dependent on class	4.2, 4.4, 4.6	Practice, Resolution, Representation	Exploration of a range of ideas and interests in the world particularly pop cultural themes through 2D and 3D forms. Students will focus on the subjective and cultural frames to produce drawings, a ceramic vessel moving into a documented form
#2	Critical Historical	50%	Semester 1 or 2 Dependent on class	4.8, 4.10	Conceptual Framework, Practice, Frames	Examination

4.1 uses a range of strategies to explore different artmaking conventions and procedures to make artworks

4.2 explores the function of and relationships between artist-artwork-world-audience in Artmaking

4.3 makes artworks that involve some understanding of the frames

4.4 recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the visual arts

4.5 investigates ways to develop meaning in their artworks

4.6 selects different materials and techniques to make artworks

4.7 explores aspects of practice in critical and historical interpretations of art

4.8 explores the function of and relationships between the artist-artwork-world-audience in Critical and Historical

4.9 begins to acknowledge that art can be interpreted from different points of view

4.10 recognises that art criticism and art history construct meanings

**Please note Music and Visual Arts are taught as a Semester Course*
