# NSW Educations Standards Authority and Departmental Requirements

During Year 7 to Year 10 the Department of Education requires that students substantially participate in the study of a minimum of:

- 500 hours of English
- 400 hours of Geography and History
- 500 hours of Mathematics
- 500 hours of Science
- 300 hours of PDHPE
- 200 hours of Creative Arts
- 200 hours of Technological and Applied Studies
- 100 hours of Languages
- 400 hours of Electives

A student is considered to have satisfactorily completed a course if they have:

- followed the course developed by the NSW Educations Standards Authority
- applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school
- achieved some or all of the course outcomes

Substantial participation and completion is dependent on your attendance at school and in classes. It is also judged on your level of involvement in class and the efforts you make in completing and presenting assignments and homework and any other experiences provided in each subject.

## School Assessments and Academic Reporting

Course outcomes are used to prescribe what a student must achieve and how their levels of achievement are assessed. Tasks are set to help assess the extent of your skills and knowledge.

Teachers have many different ways of measuring and assessing the achievement of outcomes. The tasks used to assess achievement should vary and may include the following:

- Presentations – digital, oral, multimodal, viva voce
- Reports – analytical, fieldwork, research, written
- Practical Work – experiments, improvisation, projects, performances
- Portfolios, journals, log books, process diaries
- Compositions
- Class and/or cohort tests
- Formal examination (half yearly, yearly or trial HSC)

Only one formal written examination can contribute to a formal assessment schedule.

For further information about the new HSC requirements, which will apply to students starting year 9 in 2024, please see the NSW Educations Standards Authority website:

<http://educationstandards.nsw.edu.au/wps/portal/nesa/about/initiatives/stronger-hsc-standards>

The school is currently awaiting the new guidelines for testing in Year 10 for the HSC. Once this is finalized students and parents will be informed

# Assessment Information

---

## 1. The Purpose of Assessment

Assessment is the broad name for the collection and evaluation of evidence of a student's learning. It is integral to teaching and learning and has multiple purposes. Assessment can enhance student engagement and motivation, particularly when it incorporates interaction with teachers, other students and a range of resources.

Assessment provides:

- opportunity for teachers to gather evidence about student achievement in relation to outcomes
- opportunity for students to demonstrate what they know and can do
- ability to clarify student understanding of concepts and promotes deeper understanding
- evidence that current understanding is a suitable basis for future learning

Gathered evidence is used by teachers for assessment of learning to rank or grade students. This usually takes place at key points in the learning cycle. Students receive reports identifying the levels of skill, knowledge and understanding they have achieved.

## 2. Student's Responsibilities Regarding Assessment

Students are responsible for:

- Demonstrating through application and achievement that they have met requirements including attendance in class
- Applying themselves with diligence and sustained effort, to the best of their ability, to the set tasks and experiences provided in each course
- Making a genuine attempt at all assessment tasks
- Their personal honesty, work submitted must be the student's own work and sources consulted or quotes must be acknowledged
- Submitting all tasks on or before the due date
- Being present for all in class assessment tasks and examinations
- Submitting a misadventure form if an assessment task is missed
- Understanding this document

To help meet these responsibilities each student will have access to:

- Electronically Syllabus documents
- Electronically Scope and Sequence
- Electronically assessment schedule and course requirements for each course
- At least two weeks notification that an assessment task will take place or be due on a particular date
- Feedback on each assessment task as soon as possible
- A Mid-course and Yearly Report, which will indicate to them their level of success in attaining the outcome of each course, as required by NESA
- An assurance that only two assessments will be due on any one day
- Access to all relevant documentation via the school website

### 3. Assessment Notification

All students must receive written notification from their teacher of the actual due date and details of an assessment task **at least two weeks prior to the task**. Students will be notified via DoE email and this will form a digital signature of receipt by the students. Teachers may also post to other learning platforms, such as Google Classroom.

Only two assessment tasks will be due on any one day.

The written notification must reflect information listed in the assessment schedule contained in the student assessment booklet. Any changes made to the assessment schedule must be provided to the students in form of a written notification and a new assessment schedule must be published. The student assessment booklet online will be updated accordingly.

Any changes to an assessment and the booklet will also be emailed to all students via their DoE email. This will form a digital signature of receipt of the changes.

### 4. Late Tasks

All tasks submitted after the designated time will be deemed LATE unless there are exceptional circumstances. Failure to submit a task by the designated time will result in:

- A faculty letter of concern
- A mark deduction of 10% of the maximum mark per weekday (including holidays and weekends; a weekend will be treated as one day). After 5 days the student will receive zero.

**A zero mark may be awarded when a student:**

- Submits a task late without a valid reason or extension
- Does not attempt a task
- Does not make a serious attempt at a task
- Is found to be involved in malpractice.

### 5. NAPLAN

Students in Year 9 will participate in NAPLAN testing.

The NAPLAN student report will show your child's results in the key areas of reading, writing, language conventions and numeracy. The report will also show the national average, the range of results for the middle 60% of students nationally and your school's average for each test. This means you will be able to compare the performance of your child against other students in the same year of schooling.

The additional student report will list all the questions in each test, along with a brief description of each question. This report will show you which questions your child answered correctly.

A common assessment scale is used on each NAPLAN report so that you can track your child's progress through the years. For further information please go to the NSW Education Standards Authority site:

[NAPLAN | NSW Education Standards](#)

## 6. HSC minimum standards

All students need to meet the HSC minimum standard to **receive the HSC testamur**. To demonstrate meeting these standards students need to:

- achieve a Level 3 in the online reading test
- achieve a Level 3 in the online writing test
- achieve a Level 3 in the online numeracy test.

Students do not need to meet the HSC minimum standard to:

- study a HSC course
- sit a HSC exam
- receive HSC assessment and exam results
- receive an ATAR
- receive a Record of School Achievement

Exemption will be granted for students enrolled in Life Skills courses.

## 7. Acknowledging Sources in Assessment Tasks

**Referencing** is a method of acknowledging the variety of sources of information and ideas that you have used while completing assessment tasks outside the classroom. Its purpose is to acknowledge the original source of ideas and work that is not your own. Direct quotations, facts and figures, as well as ideas and theories, from both published and unpublished works, must be referenced. Referencing is necessary to avoid plagiarism, to verify quotations and paraphrasing, and to enable readers (and markers) to follow up and read more fully the cited author's work.

Referencing generally has two key elements:

- an in-text reference (that is, within the text of the assessment task) that indicates you have used a phrase, idea or concept from someone else
- a complete Reference (in alphabetical order) at the end of the assessment task giving full details of all sources referred to in the assessment task

**Plagiarism** is presenting another person's work as your own work by copying or reproducing it without acknowledgement of its source.

If an assessment task is not referenced in the required format, you may be suspected of plagiarism. All work presented in assessment tasks must be a student's own or must be acknowledged appropriately. Malpractice, including plagiarism, could lead to students receiving ZERO marks for that.

**For further guidance on how to reference correctly please try:**

## 8. Malpractice

Malpractice is any activity undertaken by a student that allows them to gain an unfair advantage over others. It includes, but is not limited to:

- copying someone else's work in part or wholly, and presenting it as your own
- using material directly from books, journals, CDs or the internet without reference to the source
- building on the ideas of another without reference to the source
- buying, stealing or borrowing another person's work and presenting it as your own
- submitting work to which another person such as a parent, coach, tutor or subject expert has contributed substantially using words, ideas, designs or the workmanship of others in practical and performance tasks without appropriate acknowledgement
- paying someone to write or prepare material
- breaching school examination rules
- using non-approved aides during an assessment task
- contriving false explanations to explain work not handed in by the due date
- assisting another student to engage in malpractice.
- not producing sufficient document for any absence in the five days prior to a task due date.

Students and staff will be required to complete documentation. This will be reviewed by the committee and a determination made. Students have right of appeal to the Principal.

Where malpractice is detected a zero will be given for the task. The school may apply additional penalties through the school's disciplinary measures at the discretion of the Principal.
